**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claims 3-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. Claims 3 and 5 should clearly recite the perpendicular steps of the boss.

At present these limitations are awkwardly written.

b. Claim 4 should recite that the gap between the step is vertical so as to provide some orientation that defines the gap according to the disclosure.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Waldner et al (5566840).

Waldner discloses a positioning structure having a main member (10); a boss (16) which is stepped because of decreasing tapered shape, and a plurality of member (12&14) with through holes.

***Allowable Subject Matter***

Art Unit: 3723

3. Claims 3-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

**Conclusion**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Witte, MacLaren, and Hertz et al disclose a device.
